

European Subspecialty Examination in Strabismus and Paediatric Ophthalmology

Applications are now open for the next Subspecialty Examination in Strabismus and Paediatric Ophthalmology. This will be held on Wednesday 7th June 2023 at the Westin Hotel in Zagreb, Croatia. Applications will close on 31st January 2023. Further details of the examination and the application form can be found at:

<https://www.ebo-online.org/subspecialty-exam-in-strabismus-and-paediatric-ophthalmology/>

The examination is organised jointly by the European Board of Ophthalmology, The European Strabismological Association and the European Paediatric Ophthalmology Society and is intended primarily for ophthalmologists who have recently completed a clinical Fellowship in Strabismus and Paediatric Ophthalmology or equivalent training and are embarking on independent practice in the subspecialty.

The examination will immediately precede the Annual Congress of the European Strabismological Association in Zagreb and candidates who wish to stay for the Congress will be able to register at the reduced rate for trainees.

John Sloper

on behalf of the Joint Examination Board
